Dear Friends:

It has been an exciting year for our agency and it’s been a privilege working with our outstanding staff, board members and donors. On behalf of Cornerstone, I am proud to share just a few of our tremendous accomplishments over the past year. In 2016, we:

- Were awarded a new contract through the Office of Justice Programs to initiate a comprehensive Call Center responding to both general crime victims, as well as survivors of domestic violence, sexual violence and human trafficking.
- Successfully transitioned and opened our new Minneapolis office location, housing both our new Call Center staff and members of our therapy team.
- Obtained a George Foundation grant that will enable us to increase our focus on trauma informed work through staff training and expertise.
- Strengthened Cornerstone’s program evaluation efforts and have developed clearer outcomes and indicators reflecting overall program performance.
- Successfully hosted a Midwest Conference on Interpersonal Violence and Abuse with over 340 people in attendance.
- Formalized (and officially named) our afterschool program, ASPIRE, with strengthened programming for children and youth.
- Became a FAIM (Federal Assets for Independence – MN) partner and are now able to provide matched savings accounts for survivors as they save for assets, such as an automobile, home ownership, continued education or a small business.
- Added two new employees to our northwest office location, one focusing on therapeutic work with children and the other on economic advocacy.
- Completed our first comprehensive Marketing Plan that will enable us to develop stronger messaging and outreach for our programs and services.
- Were awarded Allstate funding through the Minnesota Coalition for Battered Women to be one of the lead agencies moving economic advocacy forward, through technical assistance and training, within the Twin Cities metropolitan region.
- Successfully refined and implemented a Major Gifts initiative and continue to strengthen our relationships with private donors and community partners.
- Ended the year financially strong and well positioned for a bright future.

Leading Cornerstone’s compassionate and talented team of staff members is an incredible honor. And, of course, our work would not be possible without our committed volunteers and donors. We thank everyone who has chosen to step in and be a part of making a difference in the lives of individuals impacted by interpersonal violence across our community.

Sincerely,

Meg Schnabel
Executive Director
OUR MISSION
Cornerstone’s continuum of service helps to create communities where individuals and families are safe and children thrive. We advocate, educate and lead the way to social change.

Emergency Safe Shelter and Transitional Housing
For many individuals fleeing from unsafe situations, it is critical that safe emergency shelter is available. Cornerstone’s emergency shelter and transitional housing services provide a holistic, trauma-informed approach to support families as they escape from a dangerous situation and begin to rebuild their lives. Comprehensive services include crisis intervention, life skills planning, parenting support, coordination with external social service agencies and access to basic needs. In 2016, Cornerstone provided emergency housing to 226 adults and children and provided two years of transitional housing to 14 women and their 27 children.

Mental Health and Survivor Support Services
Domestic violence, sexual violence and human trafficking have a devastating impact on survivors and their children. For many adults and children, therapy and support are a critical component of healing their wounds and moving forward. We know that children who witness violence are more likely to experience negative outcomes throughout their lives in a number of areas: physical health, emotional and mental health, social difficulties, behavioral and cognitive problems and increased high-risk behaviors. For adults, post-traumatic symptoms can include depression, anxiety and substance abuse. In 2016, Cornerstone provided counseling and support to 180 adults and children.

Community and Economic Empowerment
Creating economic security is vitally important to survivors; for many women, the primary reason they remain in or return to their partner is because they lack access to financial resources. Comprehensive services include financial literacy, employment readiness, personal empowerment workshops and individual economic advocacy. Cornerstone brought in national experts to train our staff on how to conduct REAP, an innovative financial literacy program specifically designed for low-income families experiencing domestic violence. Our Community and Economic Empowerment program served 600 families, helping them to reduce economic barriers through building long-term safety, economic stability and hope for the future.

OUR GOAL
Cornerstone’s ultimate goal is to reduce the prevalence of interpersonal violence. Healthy futures are possible when we coordinate an effective crisis response, implement trauma-informed support services, mitigate the impact of violence on children and youth and confront the roots of violence.
Youth Counseling, Support and Mentorship
Children and youth exposed to violence are facing complex challenges and needs as they move through varying developmental stages. Research mirrors our experience and highlights the extreme negative impact violence can have on children of all ages. Our youth services works with children 0-18 ranging from mentorship, an after-school program, early childhood programming, summer camp, music therapy and specialized services for sexually exploited youth. In 2016, we served 257 youth through varied program components.

School-Based Violence Prevention
Primary prevention and early intervention are critical to ultimately ending interpersonal violence. Cornerstone’s school-based services provide both violence prevention classroom presentations, as well as on-site individual and group advocacy in junior and senior high schools. Staff facilitate engaging, relevant discussions designed to increase awareness, provide resources and challenge norms. They also connect with referred students who have witnessed, experienced or caused some form of violence to help improve their social-emotional well-being, enhance safety and develop positive relationships. In 2016, Cornerstone conducted 728 classroom presentations in 27 schools, reaching 22,268 students. Early intervention supportive services were provided to 555 at-risk youth.

Legal Advocacy
Many survivors are confused, doubtful and lonely when they attempt to navigate the criminal justice system. Cornerstone currently has active partnerships with ten law enforcement offices across our community, working to create an effective response to survivors of interpersonal violence. Our staff provide advocacy in Civil and Family Court and help prepare and file Orders for Protection and Harassment Orders. Staff also advocate for victims of criminal domestic assault immediately after police intervention and throughout the criminal court proceedings, serving as a liaison between the crime victim and the criminal justice system. In 2016, Cornerstone provided intervention and legal advocacy to over 2,600 individuals within civil, criminal and family court.
CORNERSTONE’S OUTCOMES AND ACCOMPLISHMENTS IN 2016

98% of adult clients receiving clinical mental health services were able to identify skills they have developed to manage their emotional health issues.

92% of participants in shelter were able to access safe housing upon departure.

80% of participants receiving legal advocacy services increased their understanding of legal remedies available to them and their rights as victims.

94% of school-age students who attended a Cornerstone classroom presentation felt equipped to intervene and help when seeing abuse.

100% of youth served in our after-school program reported having a better outlook for their futures.

Over 1,400 individuals, including 53 groups, volunteered 10,086 hours of their time throughout the year to assist with a variety of projects at our three offices.

MEET REGINA
Regina was referred to Cornerstone in 2014 by the police who had responded to her call for help. She made the courageous decision to come to our emergency shelter with her three young children and begin the hard work of creating a violence-free life for her family.

Regina had been in the United States with her spouse for 15 years. She lived under her abusive husband’s constant threat of not being able to stay in the country with her children. One of her first goals after arriving in shelter was to become a US citizen. With the help of her Primary Advocate, she set the citizenship process in motion soon after arriving in shelter.

Regina was accepted into Cornerstone’s Community and Economic Empowerment (CEE) Transitional Housing Program which gave her two years to make further progress on her goals. By fall of 2014 Regina had earned a Certified Nursing Assistant Certificate. Later that year, she obtained her citizenship. She continued to engage in Cornerstone’s comprehensive programming while managing court appearances related to her divorce, parenting responsibilities and her studies. She worked two part-time jobs to save for her family’s next step: independent housing. Cornerstone’s Financial Literacy class taught her about budgeting, credit and savings that would help her achieve her financial goals.

In June 2016, Regina secured housing and proudly moved her family into their new apartment. Her children continue to participate in Cornerstone’s programming for youth, supported by the Youth Counselors who first connected with them while the family was in shelter. The children are doing well in school (the two oldest are on the honor roll) and Regina is working full time. Most importantly, they are together and they are safe.
